Hardware/Software

iPhone 7 is water-resistant

The biggest design improvement we get with iPhone 7 is water-resistance. It earns an IP67 rating, which means it can be submerged in up to 1 meter of water for up to 30 minutes. You can take it in the bath or out in the rain and you don't have to worry about it getting wet.

Bear in mind, however, that Apple's standard iPhone 7 warranty does not cover liquid damage. If your iPhone ends up in water too deep and gets damaged, that's your problem. AppleCare+ does cover liquid damage, though you'll have to pay a fee for a replacement handset.

Famous People from American History

Neil Armstrong (1930 – 2012) US Pilot and astronaut. In 1969, Armstrong and Buzz Aldrin became the first men to successful land and walk on the moon, giving the memorable quote. “That’s one small step for man, one giant leap for mankind. “

Riddles You Can Tell in Class

Why are skeletons so calm, cool and collected?

Because nothing gets under their skin.

What breed of horse does the Boogie Man ride?

Night Mares.

What did the ghost teacher say to his class?

"Look at the board and I'll go through it again!"

This Day in History
